Re: Testimony in support of HB-7218, HB-7223, HB-7219 and SB-60

I am writing to express my support for the above legislation. Very simply put, the citizens of CT must take a stand now to reduce the avoidable loss of human life due to gun related accidents and violence.

On a personal level, my grandfather accidentally killed his brother as child due to a gun accident. This tragic event caused trauma that impacted many lives. Why then, do we continue to support the gun culture when it has been proven in other Western Countries that the loss of human life can be greatly reduced with reasonable legislation?

I urge you to support the above bills for the benefit of the citizens of CT.

Thank you,
